Projects

TODO APP

- *REACT JS, CSS, REACT HOOKS*

its a ToDo app build in react js and styled using CSS. The library react-icons is used for icons Here we can create, update, and delete todos

PERSONAL WEBSITE

- *NEXT JS, TAILWINDCSS, REACT HOOKS*

This is my personal portfolio website build in Next js and styled using tailwind css and it is fully responsive It includes really cool features in Next JS like lazy loading images, and a built in routing system

WEATHERCASTER

- *REACT JS, TAILWIND CSS, REACT HOOKS, API*

Its a react Js weather forecasting application which shows the current weather of cities, states etc. for styling used Tailwind CSS and for fetching the weather data, used openweathermap API

ADVICE APP

- *REACT JS, CSS, REACT HOOKS*

It is an advice generating site which is several advices are randomly generated. All the advices are fetched using the Advice Slip JSON API and prints in the screen on click

Education

- Bachelor Degree In Computer Applications (one backpaper)
[2019-2022]
